EXPERIENCE

Research Assistant at Social Perception Lab with Dr. Lee Jussim

September 2020- May 2021

Research Assistant | New Brunswick, NJ

The proposed projects and research objectives of this lab included investigations in regard to how individuating information affects person perception, studying bias in academia, and researching various topics in scientific integrity, person perception, and political psychology.

My responsibilities included

- Run participants in the lab for various studies
- Attend weekly lab meetings
- Complete required reading and submit summaries

Summer Intern in Psychiatry Unit

June 2020-August 2020

SUNY Downstate Medical Center | Brooklyn, NY

- Shadowed medical students and residents who were treating patients for attention deficit disorder, chronic schizophrenics, patients with debilitating anxiety, Iraq war veterans and 9/11 survivors, patients with bipolar disorder, OCD, and PTSD
- Observed in supportive therapy which focused on strengthening patients psychological well being, as well as pharmacotherapy, with focus on correction of underlying biological markers, which lead to instability.
- Transcribed medical charts for patients with serious mental illnesses.

Teacher's Assistant

September 2019 - Present

Rutgers University | New Brunswick, NJ

I was an undergraduate Teacher's Assistant for the General Psychology Course. I helped with proctoring exams, grading, and tutoring students to make sure they understand the material.

Summer Intern at TEMA Therapy Center with Dr. Volynsky

May 2019 - Aug. 2019

TEMA Therapy Center | Fort Lee, NJ

- Observed and provided input in supervision of PhD students as they discussed their WISC testing cases and diagnoses that were made for patients
- Observed and provided input in supervisions of psychologists as they discussed their cases
- Researched the Wechsler Intelligence Scale for Children in regards to supervision of patient testing
- Read WISC reports and determined what school would be a best fit for kids with ADHD and on the spectrum for oppositional defiant disorder and conduct disorder
- Participated in Group Therapy
- Researched activities that psychologists can bring into therapy office to strengthen communication such as interactive board games, and short stories

Pure Bliss Yoga

Summers of 2018 and 2019

Receptionist | Fort Lee, NJ

- Assisted psychologist in organizing mental health workshops to use a yoga practice in breaking out of unhealthy automatic thinking patterns
- Answered inquiries about prices of classes and class information
- Maintained yoga supplies, and studios

EDUCATION

Rutgers University- New Brunswick | Psychology Major GPA: 3.7

Expected Graduation Year May 2021

- Member of Psi Chi International Honor Society in Psychology
